Chief, Military-Scientific Division, PIC

Requirement HTA/SI/R-13/59

1. This requirement cannot be answered due to lack of aerial photography over Khiski North Airfield.

2. An examination of the ground photography fails to reveal the identification of any electronic devices located on top of the tower. There is, however, a probable cable line which extends up to a rectangular structure located on top of the tower and a possible microwave dish mounted halfway up the side of the tower.
